IGEA Registry is not responsible or held liable for any information recorded as provided on this form.**

Owner's Name: \_\_\_\_\_

Owner's Signature: \_\_\_\_\_ Date: \_\_\_\_\_

Phone: \_\_\_\_\_ Email: \_\_\_\_\_

**Instructions: Pull 30 to 50 hairs from the mane or tail, (pulling 5 to 10 hairs at a time) , make sure the pulled hairs have a bulb of skin attached to the hair shafts (hair follicle – roots), as this is where the DNA is obtained for testing. Trim the excess length of hair on the end that DOES NOT contain the hair follicle bulb to a total length of approximately 3 to 4 inches and tape the hair sample to the bottom of this form and fold this form up with the hair sample inside of it.**

**Please feel welcome to call the IGEA Office 502-414-4432 if you have any questions.  
Monday through Friday 11 am – 5 pm EST**
